The course is designed for senior laboratory personnel involved in the management and establishment of laboratory quality systems, establish an internal audit program for their laboratories as per laboratory accreditation standard **ISO/IEC 17025:2017**.

Course Description

The course will provide an introduction to the new ISO/IEC 17025:2017 structure & content & presents a crosswalk comparison to the ISO/IEC 17025:2005.

In addition, the course outlines the key changes to ISO/IEC 17025 by identifying those requirements that are new, substantially revised and deleted.

The program will include a review of all key changes in all clauses supported with three exercises.

Course Benefits:

This course will be of benefit to those who are already familiar with the requirements of ISO/IEC 17025: 2005 and who are looking to understand the changes that have been made.

This course will enable delegates to gain an awareness of the revised structure of ISO/IEC 17025: 2017 and its function as a framework for demonstrating competence. It will help to gain an understanding of the changes through the application of structure, resource and process, thus helping delegates to understand what impact these changes will have on their own organizations.
